PROJECTS

IBG Infotech Pvt. Ltd.

Project: Promunim of India – Accounting Management System

- Worked on **Promunim of India**, an accounting-focused platform designed to streamline **client accounting**,

document management, compliance tracking, and financial workflows.

- Contributed to the admin panel redesign, improving usability and system performance.
- Implemented scalable backend architecture using controllers, services, and entities.
- Optimized workflows to enhance platform efficiency and user experience.

Associated Modules:

EWP (Employee Web Portal):

- Enabled employees to manage customer registrations, leads, follow-ups, compliances, invoices, summaries, and accounting data.

CWP (Client Web Portal):

- Allowed clients to upload accounting documents, manage profiles, and track compliance and submission statuses.

Compserv Consultancy Pvt. Ltd.

Project: PatSeva – Core Banking System

- Developed a core banking system for Pat Sansthas covering:
 - Saving Accounts
 - Loan Management
 - Term Deposits
- Implemented **automated transactions, interest calculations, and centralized branch operations.** Ensured accuracy, scalability, and compliance with banking workflows.

Independent Project

Task Management System - Laravel

- Designed and developed a task and record management system using Laravel.
- Implemented authentication and authorization using **Laravel Breeze.**
- Followed **MVC architecture with Eloquent ORM and Blade templates.**
- Built secure and efficient **CRUD operations** with proper request validation.
- Implemented secure session handling and dynamic UI rendering.
- Ensured data integrity and improved overall user experience.
